SUMMARY

Highly accomplished Senior Frontend Developer, recognized for driving results and excelling in Full-Stack Development, Progressive Web Applications (PWAs), Web Applications, and APIs. Demonstrated history of consistently delivering top-tier software solutions and products. Committed to knowledge sharing and actively engages with the software development community through a dedicated YouTube Channel focused on project building and advanced programming concepts. Additionally, a valued contributor to freeCodeCamo and Product Hunt.

SKILLS

Technical Skills: HTML/CSS/JavaScript, React, Typescript, Bootstrap, SASS, Tailwind CSS, Firebase, Node.js, Express.js, MongoDB, Chrome Developer Tools, GIT, Github, Vercel, Netlify

Soft Skills: Communication, Leadership, Time Management, Problem Solving, Multi-tasking, Team Management

EXPERIENCE

Front-end Engineer
doodleblue Innovations   **March 2021 - June 2023, Chennai, India**
· Broad and diverse industry proficiency encompassing Health, Fintech, Edutech, Entertainment, IT Infrastructure Management, and Retail Management.
· Proficient in troubleshooting UI and performance issues of web applications, resulting in an impressive 80% reduction in load time.
· Skilled at translating design concepts into efficient, well-written code.
· Mentored and guided a group of interns in developing front-end web applications using HTML, CSS, and JavaScript; fostered individual growth resulting in each intern successfully delivering their own fully functional web application.
· Successfully developed a React-based componens that achieved widespread reuse throughout the entire product suite.

Software Engineer
3E SOFTWARE SOLUTIONS   **November 2020 - February 2021, Bengaluru, India**
· Developed a MEAN Stack application that managed and kept track of bills and warranties with a team of four people in four weeks, which reduced the number of forgotten bills and warranties by 20%.

PROJECTS

Github Clone
August 2023 - Present
Actively engaged in the development of a GitHub replica, harnessing GitHub REST APIs, with a comprehensive feature set that includes secure sign-in/up functionality, and the complete array of GitHub capabilities, such as repository browsing, issue management, and comment replication.

Query Flex
https://queryflex.in/ · August 2023 - August 2023
· Seamlessly integrated OpenAI API models into a Next.js TypeScript application, enabling the simulation of ChatGPT-like conversational interactions.
· Built the react components for the interface, and optimized the application for performance, increasing load speeds by 80%.

Google Drive Clone
https://drive-2-0.vercel.app/ · August 2023 - August 2023
· An emulation of Google Drive, complete with analogous features, robust Google and GitHub authentication, and seamless file sharing capabilities among diverse users, meticulously crafted using Next.js, TypeScript, and Tailwind CSS.
· Successfully established user authentication through the Next Auth library, and implemented two-way file sharing functionality between users.
· Built the react components for the interface, and optimized the application for performance, increasing load speeds by 80%.

EDUCATION

Master of Computer Applications
Vellore Institute of Technology · Chennai, India · 2020

Bachelor of Computer Applications
Patna Science College · Patna, India · 2018

INVOLVEMENT

Contributor
freeCodeCamp · February 2020 - Present
· Published detailed tutorial videos and technical blog articles on complex programming topics with over 20,000 viewers and more than 90 thousand page views within the first few weeks.
